

## Additional equipment for standing seam profiles (round headed)

# REES

- Snow retention system
- Holder for steps and walking gratings
- Solar Holder

Original REES-Products!  
Only genuine with this sign!

### Assembly on round-headed standing seam profiles

#### REES-Snow retention systems

- as single- and double tube version
- with snow stop

#### REES-Holder for steps and walking gratings

- for roof pitches of max. 40 degrees
- installation with clamp brackets on standing seam
- standard version for max. 25 cm width gratings
- special manufacturing for wider steps possible
- fitting steps and walking gratings in several materials available
- certificated approval by DIN EN 516-1

#### REES-Solar Holder

- with Alu-angle-part to set up installations of almost all kinds
- different designations available to achieve a slightly elevated installation of each solar module on the ridge-side, to avoid that snow slips down the roof uncontrolled

Added to the certification on DIN EN ISO 9001, we are certified in regular terms by the german Technical Inspection Agency.

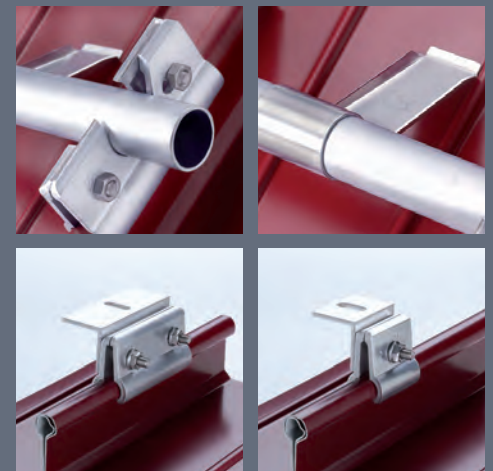

We are looking forward to advise you.
